**July 1, 2014**

**Dear Sir/Madam,**

We send you our greetings from Indian Environmental Society. We started our journey from December 26-30, 1973. We organized the first Conference on Environment in India at the Indian National Society, New Delhi. Professor D.S. Kothari, Eminent Scientist and President of Indian National Science Academy (at that time) was the Chief Guest and source of inspiration and blessed the success of our efforts.

In the last forty one years the Society has travelled many miles and achieved excellence as active organization working on Environmental Education and Sustainable Development. The Society has achieved many hats and has helped in creating several programs for students, scientists, teachers and community. The society has played pioneering role in developing environmental programs and projects not only in India but in different parts of the world. The Society has worked with number of International, National and UN organizations.

The Society has produced number of reports, publications and regular newsletter. The Society has trained large number of young students and teachers on Environmental Education activities. The society is helping number of Community Groups and organizations on Environmental protection activities. The Society has honored eminent environmental scientists. The Society has developed exchange programs with number of countries and has organized large number of Seminar, Conferences, Expeditions and Workshops.

To celebrate our journey and to evaluate our efforts we are planning to organize GLOBAL CONFERENCE ON EDUCATION FOR SUSTAINABLE DEVELOPMENT during November 2-4, 2015 in New Delhi. We hope the Conference will also evaluate the impact of UN initiatives on Environmental Education including the UNESCO Decade on Education for Sustainable Development and will launch officially the Centre of Education on Sustainable Development.

We will appreciate your support in patronage in our efforts.

With best regards

**Sincerely yours**

**Dr. Desh Bandhu**

*President-Indian Environmental Society  
Director- GLOBE Regional Office for Asia-Pacific*
